

Installation of your Gigaset IP with peoplefone

Register without any obligations into peoplefone and be convinced by the quality and the very cheap rates while phoning all over the world with peoplefone!

1 Registration into www.peoplefone.ch

- (1) Choose „**Register**“ in the homepage.
- (2) Enter your personal and login data.
- (3) Choose "own device/adapter" as device.

After the registration you will receive an e-mail with all the information to configurate your IP phone. Should you not receive any e-mail, please check the data on your peoplefone account – profile – configuration data or contact us under support@peoplefone.com.

2 Configuration with the handset

After having connected the base station to the power supply and the router/modem, you can start the configuration **directly on the handset**:

Menu on handset

- | | |
|---------------|-----------------------|
| > Settings | OK |
| > Telephony | OK |
| > Assistant | OK |
| > System-PIN: | Enter "0000", then OK |

Enter

If it asks a "auto configuration code", answer "no"

- | | |
|----------------------|----------------------------|
| > Select country | "Switzerland", then OK |
| > Choose provider | "Peoplefone", then OK |
| > Authent. Name: | XXXXX Number =SIP Username |
| > Authent. Password: | XXXX Number = SIP password |

You can find the configuration data also in your peoplefone account – profile – configuration data (SIP username =Authent. Name; SIP password = Authent. Password).

We wish you plenty of fun with your Gigaset and peoplefone!
