

User Manual Android

With WiFi from wherever you are, you can use the peoplefone application on your Android phone. You just need to download the free application on the Android market, fill in the SIP Data of your peoplefone account and make very low cost calls all over the world. You can avoid roaming costs and the phone costs will be deducted directly from your peoplefone account.

With your 3G-Network and the Add-On Codec G729a you can also use the peoplefone application. Be careful on the internet consumption costs of your mobile operator when using 3G!

Android market: peoplefone application

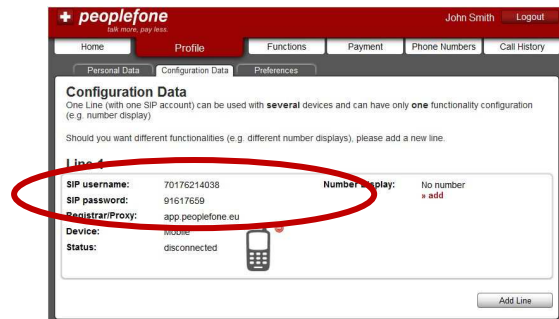

1. Go to the Android market
2. Search for «**peoplefone**»
3. Download the application for free

Peoplefone account

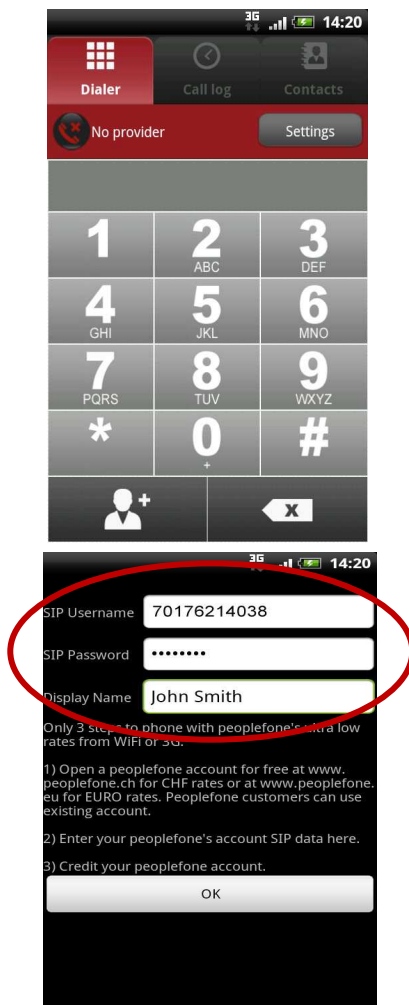

1. Go to www.peoplefone.ch
2. Go to «**Register**» to have a new peoplefone account for free

3. Add a first credit for phoning on «**Payment**» - «**Add Funds**»
4. Go to «**Profile**» - «**Configuration Data**» and get your SIP Username and your SIP Password

Android Configuration

1. Open the peoplefone application on your Android phone
2. Go to «**Settings**», «**SIP Accounts**», «**Add new provider**»
3. Fill in the SIP Username and the SIP Password from your peoplefone account («**Profile**» - «**Configuration Data**»).
4. «**OK**»
5. You can start making low cost phone calls worldwide with WiFi or 3G!

The most common mistakes

«Peoplefone wrong SIP»

Please check the SIP Username and SIP Password from your peoplefone account.

«Error»

The WiFi hotspot is protected with a password or blocked for VoIP, so the application cannot connect to our servers. Please try in another place or open the firewalls on the WiFi router.

Bad quality of voice (echo or interrupted voice)

If the voice may be interrupted or you hear yourself on echo, the WiFi hotspot has not a good bandwidth or the upload of your 3G-bandwidth is not stable. For a better quality with the 3G-network it may help to purchase the Add-On Codec G729a directly from your application («**Settings**» - «**Add-ons**»).

You can check the bandwidth of your internet connection at www.peoplefone.ch «**Support – FAQ – Troubleshooting**».
